Old Holiday Demolition

Environmental Abatement, Structural Demolition, Site Work: From an eyesore to Green Space

BEFORE

DURING

AFTER

Heavy Demolition

Details:

- Owner: City of Petersburg
- General Contractor: NA
- Project Name: Holiday Inn Demolition & Debris Removal
- Location: Petersburg, VA

Description:

Asbestos abatement, PCB/Mercury removal and demolition of four and five story hotel structures. Demolition included over 87,500 SF of building structures, the removal of 8,400 SF of asphalt. All metal building components were recycled along with the concrete crushing of all structural and associated site concrete which created over 15,000 tons of re-usable products. Macsons performed the work 100% in house to include the abatement, demolition, and crushing operation, along with restoring the former building sites to green space.
