Landrum Hall Renovation, William & Mary College

Select Demolition

Details:

Owner: College of William & Mary
General Contractor: W. M. Jordan Company
Project Name: Landrum Hall Renovation
Location: Williamsburg Virginia

Description:

Landrum Hall is a five story dormitory. The project consisted of asbestos abatement and select demolition on all floors. Select demolition required completely gutting the entire building, including all interior masonry walls, by the use of chutes evacuating to dumpster containers below. A substantial amount of shoring was required along with some heavy demolition to remove a portion of an exterior masonry wall and footing. The total value of the job was in excess of a million dollars, taking about six months to complete.
