

## Select Demolition of the American Cigar Factory

Demolished everything except the brick facade, using specially engineered buttress.

## Select Demolition

### Details:

- Owner: American Cigar Factory LLC
- General Contractor: Clancy and Theys
- Project Name: American Cigar Factory
- Location: Norfolk, VA

### Description:

**SELECT DEMOLITION:** Project involved special structural engineering of brick veneer on the building facade to ensure that it remained intact, while the entire interior of the building was meticulously cleared for reconstruction. Photos below show the I-beam reinforcement required to prevent the facade from collapsing during demolition.
