## Southeastern Virginia Training Center Building Complex

Both buildings removed, land graded to storm water prevention standards and restored to green space.

## Heavy Demolition

### Details:

- Owner: Chesapeake Economic and Development Authority
- General Contractor: Macsons, Inc.
- Project Name: Demolition of Buildings 1&2 Stepping Stone Square
- Location: Chesapeake, VA

### Description:

The scope of work for this project consisted of abating and demolishing Buildings 1 and 2 on the South Eastern Virginia Training Center in Chesapeake. Additionally, selective roadways, parking lots and walkways were demolished and prepared for conversion to green space. The site was backfilled, graded, and seeded. Prior to demolition, all mercury bulbs, PCB light ballasts, and 3,000+ tones of non-friable, Macsons abated all category II asbestos containing floor tile and mastic. Both one story buildings were demolished. All blocks, slabs, loading docks, and side walks were stock piled. Macsons in-house crushing crew then crushed 4,000 cubic yards, which were in turn reused as backfill, with the remainder reused on alternate sites. Over 95% of the buildings was recycled, leaving it fine graded, seeded, and within storm water prevention mandated standards.
